All pets must be current on vaccinations (within the last year). This is to protect them against contagious diseases, stop the spread of contagious diseases, and protect our staff from zoonotic disease (those that can be transmitted to humans).

We require Distemper, Hepatitis, Leptospirosis, Parainfluenza, Parvovirus, Rabies and Bordetella or kennel cough for boarding dogs and Feline Herpesvirus, Calicivirus, Chlamydia and Panleukopenia for boarding cats.

In case of an emergency in which medical or surgical treatment is necessary we will make every attempt to contact you, the owner, or the owner's representative. However, in the event we are unable to contact you, the pet will be treated at the doctor's discretion to alleviate pain, suffering, and the spread of contagious disease.

In the event of an emergency hurricane evacuation, please leave an additional contact name and number in case we cannot reach you. It will be your responsibility to find a safer location for your pet in case of a mandatory evacuation.

I, the undersigned, do hereby certify that I am the owner or duly authorized agent for the owner of the animal described above and have the authority to execute this consent.

I have read and understand this authorization and consent. I further understand that I assume financial responsibility for all services rendered.
